Barb Rosenstock's rhythmic words and John O'Brien's whimsical illustrations capture Jefferson's passion for the written word as well as little-known details about book collecting. Author and artist worked closely with experts to create the first picture book on Jefferson's love of reading, writing, and books. An author's note, bibliography, and source notes for quotations are also included.

"A young girl delicately chastises her uncle returned from World War I: 'You could have written about home . . . I don't know. Remembering. About missing the things at home, about missing.' "Early in Thomas McConnell's story collection, *A Picture Book of Hell and Other Landscapes*, the work's overarching theme announces itself in such moments of minimalist dialogue, a theme reworked, replayed and reinterpreted through a group of loosely connected vignettes that come together convincingly within the context of the book: that of longing, of yearning, of the not always reconcilable importance and impermanence of human connection."—*Charleston Post & Courier*"All humans are in some sense exiled."—Hugh KennerImagine Chaucer's pilgrims—without a Canterbury. Across a landscape devoid of monumental shrines, they would wander still, having no more alternative than the planet swimming in its system, just as they would continue to talk the stories of their lives. Such pilgrims are the characters inhabiting *A Picture Book of Hell*. In stories and situations that chime against one another like variations on musical themes, the quiet wanderers in this collection seem all entrained on the "pointless quest for the questless point," as one narrator concludes. Two old friends repeatedly fail to rendezvous, save in the last connection of a suicide note. A reluctant bank teller abandons his life and his rented house to take the place of a dead vagabond. The volume's title novella discloses a veteran of the First World War struggling to reconcile the two worlds he's come to know too well, neither of

From Ireland to the New South, whether exiled from home or homeland, from others or their own retreating selves, these characters rustle through their days rather like the series of small and vulnerable creatures that scurry and flee through the landscapes of these allusive and elliptical stories.

Before Usain Bolt or Tyson Gay, Bob Beamon or Carl Lewis, Jesse Owens was perhaps the greatest and most famous athlete in track and field history. Jesse Owens was born on a farm to a large family with many siblings. His grandparents had been slaves, and his sharecropper parents were poor. But against all odds, Jesse went on to become one of the greatest athletes in history. He learned to run with such grace that people said he was a "floating wonder." After setting multiple world records as a college athlete, including three in less than an hour—"the greatest 45 minutes in sport"—Owens competed in the 1936 Olympics in Berlin. Adolf Hitler intended for the games to display Aryan superiority, but Jesse disrupted that plan. He became the first American track-and-field athlete to receive four Olympic gold medals and established his legacy as a hero in the face of prejudice. This child friendly entry in David A. Adler's well-known series contains an accessible mix of biography, facts, and history supported with lifelike illustrations. Back matter includes an author's note and a timeline.
