Let's be honest. No woman really wants to be alone for the rest of her life. But does being alone mean you're doomed to be miserable forever? Definitely not! And does being single have to equal lonely? No way! You can have the best time of your life when you're single, but you wouldn't know that from our relationship obsessed society, where celebrity magazines devote the majority of their content to who's dating whom and the wedding industry is a \$100-billion business. Yet more than a third of marriages end in divorce, and countless other couples languish in unions that shouldn't have happened in the first place. Don't become a statistic—love yourself and never settle! Jen Schefft knows that better than almost anyone. In 2003, she got engaged in front of millions of people on television's *The Bachelor*, only to see it end nine months later when the relationship just wasn't right anymore. A year later, she turned down an engagement on *The Bachelorette*, and the backlash was relentless. She was labeled a "spinster" by a celebrity magazine, and a noted national talk-show host remarked that she would be "a bachelorette for the rest of her life." This is a terrible message to send to the millions of sensational single women out there, and in *Better Single Than Sorry* Schefft makes it her mission to let women know that it's better to be single than to be in a relationship that doesn't make you happy. With testimonials from women of all ages—single, married, in committed relationships, with children (even single moms) and without—this book tells you how to let go of your fear of being alone and how to love yourself and never settle for a relationship that is anything less than you deserve. Written in a conversational style, as if talking with your best friend, Schefft helps you navigate the pressures of a culture that places an unhealthy importance on being in a relationship and shows you how to find happiness in work, home, and the simple pleasures of everyday life. Above all, she shows you how it's far, far better to be single than sorry. Being single is a time to have fun, learn new things, grow, and blossom—not a time to feel desperate or depressed, so cherish it!

'It's time for women to start telling the world – and each other – why it's better to be single than sorry. Yes, it's great to have a boyfriend or a husband, and I'm not suggesting women give up the idea of happily ever after, but I don't believe in settling... The truth is, we know what we're looking for and we must never sell ourselves short.' Life can be fabulous on your own – the antidote to dating books! *BETTER SINGLE THAN SORRY* has a simple, refreshing and powerful message. It's far better to be single than to end up with someone who doesn't make you happy just because you want to be in a couple, feel pressured by society / your friends / your mother, or you want to get married or have kids. She's all for compromising and being realistic, but she encourages women not to settle for the sake of it. Chapters include: * Being Single is Not a Curse * It Takes Guts to be On your Own * Don't Play Hard to Get – Be Hard to Get * 50 Reasons Why it's Great to be Single * But All My Friends are Married... * Stop Believing You Can't do Better * Throw Away the Picture of your Ideal Man * Don't Talk yourself into Liking a Guy * Basic Instinct – Trust Yours * What you Want Versus what you Need

How toxic are the products we consume on a daily basis? Whether it's triclosan in toothpaste, formaldehyde in baby shampoo, endocrine disruptors in water bottles, or pesticides on strawberries, chemicals in food and personal care products are of increasing concern to consumers. This book chronicles how ordinary people try to avoid exposure to toxics in grocery store aisles using the practice of "precautionary consumption." Through an innovative analysis of environmental regulation, the advocacy work of environmental health groups, the expansion of the health-food chain Whole Foods Market, and interviews with consumers, Norah MacKendrick ponders why the problem of toxics in the U.S. retail landscape has been left to individual shoppers—and to mothers in particular. She reveals how precautionary consumption, or "green shopping," is a costly and time-intensive practice, one that is connected to cultural ideas of femininity and good motherhood but is also most available to upper- and middle-class households. *Better Safe Than Sorry* powerfully argues that precautionary consumption places a heavy and unfair burden of labor on women and does little to advance environmental justice or mitigate risk.
