This is the first book-length study of the popular novelist Tom Robbins. Whimsy and humor characterize Robbins' work, but style and language are the keystones. Hoyser and Stookey show how Robbins deftly uses style and humor to depict the absurdities and injustices of our world. His novels constantly challenge perceptions of the world that people automatically label as normal. His fiction criticizes the complacency of humans in a world becoming increasingly alienated from nature and the joy of life. In addition to a critical analysis of each of his novels, the study contains biographical material never before published and the first full-length bibliography on Robbins, including a bibliography of reviews of his fiction. Through the perspectives of selected best-selling novels from the end of World War II to the end of the 20th century—including *The Catcher in the Rye*, *To Kill a Mockingbird*, *The Godfather*, *Jaws*, *Beloved*, *The Silence of the Lambs*, and *Jurassic Park*—this book examines the crucial issues the U.S. was experiencing during those decades. These novels represent the voices of popular conversations, as Americans considered issues of family, class, racism and sexism, feminism, economic ambition, sexual violence, war, law, religion and science. Through the windows of fiction, the book surveys the Cold War and anti-communism, the prefeminist era of the 1950s and the sexual revolution of the 1970s, forms of corporate power in the 1960s and 1980s, the traumatic legacies of slavery and Vietnam, the American fascination with lawyers, cops and criminals, alternate styles of romance in the era of late capitalism, our abiding distrust of science, and our steadfast wonder about the Great Mysteries.

"This collection presents comprehensive, unique scholarly analyses of Terrence Malick's films through the lenses of philosophy, poetry, cinema, and theology"--

Mass-Market Fiction and the Crisis of American Liberalism, 1972–2017 tracks the transformation of liberal thought in the contemporary United States through the unique lens of the popular paperback. The book focuses on cultural shifts as they appear in works written by some of the most widely-read authors of the last fifty years: the idea of love within a New Economy (Danielle Steel), the role of government in scientific inquiry (Michael Crichton), entangled political alliances and legacies in the aftermath of the 1960s (Tom Clancy), the restructured corporation (John Grisham), and the blurred line between state and personal empowerment (Dean Koontz). To address the current crisis, this book examines how the changed character of American liberalism has been rendered legible for a mass audience.
