The Local Government Association is a nationwide body that assists the different classes of local authorities. German local government (omitting the Nazi era) attempted to unite the tradition of free and enterprising civic life with the full popular enfranchisement that came first only in 1919. Its hierarchical system, with strong central oversight reaching back to the 18th century, was a little eased during the Weimar period.

changing structure, forms, and functions of local governments. Taking a metropolitan management perspective, authors Kimberly Nelson and Carl W. Stenberg explain U.S. local government within historical context and provide strategies for effective local government management and problem solving. Real-life scenarios and contemporary issues illustrate the organization and networks of local governments; the roles, responsibilities, and relationships of city and county managers; and the dynamics of the intergovernmental system. Case studies and discussion questions in each chapter encourage critical analysis of the challenges of collaborative governance. Unlike other books on the market, this text ' s combined approach of theory and practice encourages students to enter municipal and county management careers and equips them with tools to be successful from day one.

among them, and an analysis of contemporary problems concerning local authority, local revenues, state interventions and takeovers, and the restructuring of local governments. The author pays special attention to local governmental autonomy and the goals and activities of local officials as they seek to secure resources, fend off regulations and interventions, and fight for survival as independent units. He looks at the intergovernmental struggle from the bottom up, but in the process examines a variety of political activities at the state level and the development and effects of several state policies. Berman finds considerable reason to be concerned about the viability and future of meaningful local government.

Known for encouraging step-by-step problem solving and for connecting techniques to real-world scenarios, David Ammons' *Tools for Decision Making*

With political considerations evident both locally and nationally, managing resources can be complex and subject to change. This book introduces new concepts and new ways of doing business that can greatly enhance the value of the services a local government provides to its citizens, without putting a greater financial burden on taxpayers. Padovani and Young present out-of-the-box thinking based on solid research and experience to discuss topics such as:

- Incorporating outcome indicators into strategic planning and budgeting
- Building a LG 's budget with ' cost drivers '
- Expanding the concept of ' enterprise funds '
- Assessing and better managing the risk associated with outsourcing
- Using the concept of ' shadow pricing ' to compare public with private sector costs for services
