The definitive collection of terrifying stories by "one of the greatest writers of the 20th century" (Ray Bradbury), edited by award-winning author Victor LaValle Among the greats of 20th-century horror and fantasy, few names stand above Richard Matheson. Though known by many for novels like I Am Legend and his sixteen Twilight Zone episodes, Matheson truly shines in his chilling, masterful short stories. Since his first story appeared in 1950, virtually every major writer of science fiction, horror, and fantasy has fallen under his influence, including Stephen King, Neil Gaiman, Peter Straub, and Joe Hill, as well as filmmakers like Stephen Spielberg and J.J. Abrams. Matheson revolutionized horror by taking it out of Gothic castles and strange cosmos and setting it in the darkened streets and suburbs we recognize as our own. He infused tales of the fantastic and supernatural with dark explorations of human nature, delving deep into the universal dread of feeling alone and threatened in a dangerous world. The Best of Richard Matheson brings together his greatest hits as chosen by Victor LaValle, an expert on horror fiction and one of its brightest talents, marking the first major overview of Matheson's legendary career. "[Matheson is] the author who influenced me most as a writer." -Stephen King "Richard Matheson's ironic and iconic imagination created seminal science-fiction stories . . . For me, he is in the same category as Bradbury and Asimov." -Steven Spielberg "He was a giant, and YOU KNOW HIS STORIES, even if you think you don't." -Neil Gaiman For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Scott Carey, once an ordinary husband and father, finds himself shrinking away as he enters a microscopic world, where he is forced into a perilous confrontation with the limits of fear and existence. Reprint. 25,000 first printing.

An ordinary man, Tom Wallace suddenly finds himself the possessor of extraordinary psychic abilities that allow him to "hear" the private thoughts of the people around him, but the nightmare worsens when he becomes the recipient of a compelling message from beyond the barrier of death.

The legendary novel of science-fiction horror: "The author who influenced me the most as a writer was Richard Matheson" (Stephen King). After he is exposed to a radioactive cloud, Scott Carey finds himself shrinking, slowly, day-by-day, inch-by-inch. Scott once had a normal, everyday existence as a husband and father, but as time passes, he becomes a national spectacle, something worthy of newspaper headlines. As Carey shrinks, smaller and smaller, his family become giants, more and more unreachable, and even the family cat becomes a predatory menace. In this world of disproportion, increasingly perilous with each passing day, Scott struggles to survive—and is pushed to the very limits of fear and existence . . . Adapted into the Hugo Award-winning film *The Incredible Shrinking Man*, this is a classic by the author of *I Am Legend* and other renowned works—a master of imagination whom Ray Bradbury called "one of the most important writers of the twentieth century." "A classic of suspense as poignant as it is frightening—a mix that only Richard Matheson could pull off." —Dean Koontz
