Jigsaw puzzles: Six steps to putting the pieces together ...

Shape recognition-- the first puzzles we use are simple shapes -- triangle, squares and circles. From there more complex shapes are used until the abstract jigsaw puzzles are used. Memory-- Your child has to remember the shape of pieces that don't fit fir when they will fit later on. Problem solving-- Either the puzzle piece fits or it does not. Your child uses critical thinking skills to solve the puzzle and, best of all, you can't cheat a puzzle!
