Lauren Guthrie was a very popular finalist in BBC TV's Great British Sewing Bee. Now Lauren wants to show anyone who has been bitten by the sewing bug how beautiful, useful things for your home, for yourself and for family and friends can be only a stitch away. Through a series of step-by-step projects that gradually increase in complexity, Lauren provides structured techniques that allow you to build expertise and confidence - and make some gorgeous projects in the process. The clothes and home wares reflect her own lovely pared-back style, and feature in particular the attention to detail and distinctive touches that she loves to bring to anything she makes, from an unexpected lining to a clever edging. From bags, belts and simple tops to blinds and cushions, each of the projects includes one or more variations to the design, fabric or embellishments, so that, once you have mastered the basic technique, you can create endless, stunning alternatives.

"I want to be healthy and fit 52 weeks of the year, but that doesn't mean I have to be perfect every day. This philosophy is a year-round common-sense approach to health and fitness that involves doing your best most of the time—and by that I don't mean being naughty for three days and good for four. I mean doing your absolute best most of the time during every week, 52 weeks of the year."—Carrie Underwood  
Carrie Underwood believes that fitness is a lifelong journey. She wasn't born with the toned arms and strong legs that fans know her for. Like all of us, she has to work hard every day to look the way that she does! In FIND YOUR PATH she shares her secrets with readers, with the ultimate goal of being the strongest version of themselves, and looking as good as they feel. Carrie's book will share secrets for fitting diet and exercise into a packed routine—she's not only a multi-Platinum singer, she's a businesswoman and busy mom with two young children. Based on her own active lifestyle, diet, and workouts, FIND YOUR PATH is packed with meal plans, recipes, weekly workout programs, and guidelines for keeping a weekly food and workout journal. It also introduces readers to Carrie's signature Fit52

workout, which involves a deck of cards and exercises that can be done at home—and it sets her fans on a path to sustainable health and fitness for life. Fit52 begins with embracing the "Pleasure Principle" in eating, making healthy swaps in your favorite recipes, and embracing a long view approach to health—so that a cheat a day won't derail you. Throughout the book, Carrie shares her personal journey towards optimal health, from her passion for sports as a kid, to the pressure to look perfect and fit the mold as she launched her career after winning American Idol, to eventually discovering the importance of balance and the meaning of true health. For Carrie, being fit isn't about crash diets or a workout routine that you're going to dread. It ' s about healthy choices and simple meals that you can put together from the ingredients in your local grocery store, and making the time, every day, to move, to love your body, and to be the best version of yourself.

INSTANT NATIONAL BESTSELLER An inspirational, uplifting, and life-affirming memoir about passion, resilience, and living life to the fullest, from Dr. Dave Williams, one of Canada ' s most accomplished astronauts. I had dreamt about becoming an astronaut from the time I watched Alan Shepard launch on the first American sub-orbital flight on May 5, 1961. Eleven days before my seventh birthday, I committed to a new goal: one day, I would fly in outer space. Dr. Dave has led the sort of life that most people only dream of. He has set records for spacewalking. He has lived undersea for weeks at a time. He has saved lives as an emergency doctor, launched into the stratosphere twice, and performed surgery in zero gravity. But if you ask him how he became so accomplished, he ' ll say: " I ' m just a curious kid from Saskatchewan. " Curious indeed. Dr. Dave never lost his desire to explore nor his fascination with the world. Whether he was exploring the woods behind his childhood home or floating in space at the end of the Canadarm, Dave tried to see every moment of his life as filled with beauty and meaning. He learned to scuba dive at only twelve years old, became a doctor despite academic struggles as an undergraduate, and overcame stiff odds and fierce competition to join the ranks of the astronauts he had idolized as a child. There were setbacks and challenges along the way—the loss of friends in the Columbia disaster, a cancer diagnosis that nearly prevented him from returning to space—but through it all, Dave never lost sight of his goal. And when he finally had the chance to fly among the stars, he came to realize that although the destination can be spectacular, it ' s the journey that truly matters. In Defying Limits, Dave shares the events that have defined his life, showing us that whether we ' re gravity-defying astronauts or earth-bound terrestrials, we can all live an infinite, fulfilled

life by relishing the value and importance of each moment. The greatest fear that we all face is not the fear of dying, but the fear of never having lived. Each of us is greater than we believe. And, together, we can exceed our limits to soar farther and higher than we ever imagined.
