American Board of Pediatrics | An ABMS Member Board

The American Board of Pediatrics (ABP) marked its 60th anniversary in 1993. Because all of the original board members have long since passed from the scene, no one can comment on the Board's origin from firsthand experience, as Chick Koop did so well in his essay on the origins of pediatric surgery. During the first decade of my association with the ABP, however, I heard stories and bits of ...

Home | ABP Parent Outreach

The American Board of Pediatrics has undergone monumental changes during the 25 to 30 years that I have been in pediatrics. From a small group, almost self-perpetuating, operating out of John and Nora Mitchell's den in suburban Philadelphia, this organization has become a complex force affecting child care the world over. In the early days, examiners brought their own case materials for use at ...

The American Board of Pediatrics: Reflections on its mission

The American Osteopathic Board of Pediatrics (AOBP) is an organization that provides board certification to qualified Doctors of Osteopathic Medicine (D.O.) who specialize in the diagnosis and treatment of medical diseases in infants, children, and adolescents (pediatricians). The board is one 18 medical specialty certifying boards of the American Osteopathic Association Bureau of Osteopathic ...

Pediatrics | Mufreesboro Medical Clinic

Neonatology is a subspecialty of pediatrics that consists of the medical care of newborn infants, especially the ill or premature newborn. It is a hospital-based specialty, and is usually practised in neonatal intensive care units (NICUs). The principal patients of neonatologists are newborn infants who are ill or require special medical care due to prematurity, low birth weight, intrauterine ...

Pediatrics Board Review (PBR) was written by Dr. Ashish Goyal to help pediatricians pass the American Board of Pediatrics Initial Certification exam, the MOC recertification exam & the MOCA-Peds exam. The PBR offers a 100% money-back first-time pass guarantee & has had multiple consecutive years of 100% Pass Rates for the MOC exam. PBR has also achieved seemingly unattainable results, such as helping pediatricians finally pass their initial certification exam after up to SEVEN previous failed attempts. PBR's Core Study Guide is now available on mobile devices (e.g., iPhone) and tablets (e.g., iPad).

Review and retain the information you need for success on the boards with Nelson Pediatrics Board Review: Certification and Recertification. This highly practical review tool follows the American Board of Pediatrics (ABP) general pediatrics content outline, with topics weighted to correlate with the exam. Must-know information is presented in a way that's easy to study and remember, and is backed by the Nelson family of references that you know and trust for current, authoritative information in your field. Equips residents and physicians with an efficient, comprehensive system for study, designed specifically to help you perform at your best on the board exam. Presents information in a bulleted, high-yield format, with topics matching ABP content guidelines. Provides a real-world balance of necessary fundamental information and cutting-edge advances – all carefully written and reviewed by editors and contributors from the world renowned Children's Hospital of Philadelphia (CHOP). Features over 600 board-style questions with full, discursive answers online. Includes reader-friendly features that promote testing success: tables that show differences between diagnoses, genetic disorders grouped by key features in phenotypic presentation rather than in alphabetical order, and more – all designed to help you recall key information when taking exams. Provides online links to the Nelson Textbook of Pediatrics that offer a complete presentation of the content, including evidence-based treatment and management.

Covers the most frequently asked and tested points on the pediatric board exam. Each chapter offers a quick review of specific diseases and conditions clinicians need to know during the patient encounter. Easy-to-use and comprehensive, clinicians will find this guide to be the ideal final resource needed before taking the pediatric board exam.

This clinical casebook provides a comprehensive yet concise state-of-the-art review of adult critical care medicine. Presented in a case-based format, each case focuses on a scenario commonly encountered with an adult patient in the ICU. Case scenarios include management of seizures and acute intracranial hypertension, sepsis, liver failure, brain death, bleeding and thrombosis, and treating hospital acquired infections in the ICU. Written by experts in the field, Adult Critical Care Medicine: A Clinical Casebook is a valuable resource for critical care specialists and practitioners who treat adult patients in critical care settings.

This CD-ROM program for Windows® is a high-efficiency, self-study and self-testing tool containing over 1000 questions, answers, and explanations, offers study, testing and review for the American Board of Pediatrics General Pediatrics Certification Exam. The focus is on the health and welfare of children and adolescents. Images and cases are associated with many questions. The difficulty of exams, except for full exams, adapts based on prior performance.

Patients who are confident of physicians' intellectual and technical abilities are sometimes not convinced of their professional behavior. Systemic and anecdotal cases of physician misconduct, conflict of interest, and self-interest abound. Many have even come to mistrust physicians as patient advocates. How can patients trust the intellectual and technical aspects of medical care, but not the professional? In order to enhance and promote professionalism in medicine, one should expect it, encourage it, and evaluate it. By measuring their own professional behavior, physicians can provide the kind of transparency with which they can regain the trust of patients and society. Not only patients, but also institutions which accredit organizations have demanded accountability of physicians in their professional behavior. While there has been much lament and a few strong proposals for improving professionalism, no single reliable and valid measure of the success of these proposals exists. This book is a theory-to-practice text focused on ways to evaluate professional behavior written by leaders in the field of medical education and assessment.

General Pediatrics Board Review is a comprehensive guide for recent residency graduates and re-certifiers preparing for the American Board of Pediatrics (ABP) board exam. The text consists of over 1000 multiple-choice questions, organized into 25 chapters covering pediatrics topics such as fetal and neonatal care, adolescent and young adult medicine, genetics, child maltreatment, pediatric infectious diseases, gastrointestinal disorders, and more. Chapters include questions, answers with detailed explanations and references to primary or landmark articles to help better navigate a standardized exam. Questions are written in a case-based format that emulates the ABP board exam, and are supplemented by figures, tables, and boxes. A Quick Facts section rounds out the text for ease of reference.

This is the 2022 Updated Edition of Laughing Your Way to Passing the Pediatric Boards updated based on the previous year's Content Specifications of the American Board of Pediatrics and the American Academy of Pediatrics. This book contains the high yield material that has helped thousand of Pediatric Board Candidates and those preparing for Pediatric MOCA and Maintenance of Certification. This is an excellent reference for Pediatric Residents preparing for the Pediatric In Service Exam (Pediatric ITE)

An Engagingly Written, Case-Based Review for the Pediatrics Board Exam McGraw-Hill Education Specialty Board Review: Pediatrics is the perfect resource to help you prepare for the American Board of Pediatrics (ABP) certification or recertification examination. Written in a refreshing conversational tone, this unique review utilizes a case-based presentation that includes questions, answers, and discussion.
